Young Designers & Creators Conference

On Tuesday some lucky grade 6’s got the opportunity to go to Ballarat High School for the ‘Young Designers Conference’. 16 students were selected, and each made a recycled product to bring in for a competition that was to be held there as well. They were split into groups with other students from other public primary schools from around Victoria, and some Ballarat High year 7 students. They all rotated around different activities including T-shirt designing, paper clip making, sculpting with recycled objects and newspaper sculpting. They were supplied with fruit for recess and enjoyed some yummy pizza for lunch. Everyone had a great time and we were lucky enough to have a winner in the competition, Lily McCormick with her brilliant mosaic pot. Thanks Miss Caldow for taking us and helping out with the activities.
